Prague – Thematic Tours

Other specific products of our agency are tours devoted to a specific topic – art, music, architecture, famous people connected with Prague.

These tours are focused on clients that are familiar with Prague and are interested in a specific topic. The tours are 2 to 3 hours long depending on the demands of the client.

We recommend especially for groups to attend a lecture on the given topic before the tour itself. If the client orders this, our experts can give a lecture (with a slideshow) in interesting interiors that we have at our disposal.

These are very demanding tours, and therefore, we would like to stress the importance of submitting a binding order with a deposit if you wish to reserve a lecture and the given interiors.

As with the other tours it is possible to order other additional services.
